GERALD MARKS TALKS ABOUT 3D:

**Picturing Dance in Three,
Sometimes Four, Dimensions**

January 8, 2008, 6 p.m. at the Donnell Media Center
20 W. 53rd Street (bet. 5th and 6th Aves.), New York, NY
FREE ADMISSION

Multimedia artist **Gerald Marks** presents an evening of Stereoscopic 3-D projections of or related to dance. This digital 3-D slideshow begins with historical examples some of the earliest 3-D photography of dance and goes on to explore the links between dance, nature, science, and perception. High quality 3-D glasses will be provided for your viewing experience.

Gerald Marks is an artist working along the border of art and science, specializing in stereoscopic 3-D. He has taught at **The Cooper Union**, **The New School** and the **School of Visual Arts**, where he currently teaches Stereoscopic 3-D as part of the MFA program in Computer Art.
